

## Exploring Partnership Models Exercise

### Which models can contribute to meeting our partnership goals?

#### Instructions

- Two industry partnership goals are provided below.
- Working individually, review the first goal, selecting those models whose partners could advance meeting this goal.
- As a table, share and discuss why you chose as you did and how different types of partners might advance this goal
- Select a scribe to capture models for which there was consensus
- Repeat with the second goal
- If there is time, prioritize the top 1-3 models for each goal; we will try and include this in the big group report out.

#### Partnership Goal #1

Program staff will increase recruitment of underrepresented and underserved students in our service area by 50% over the next two academic years.

Models that support Goal #1							
Advisory Board	Curricular Development / Review	Faculty Professional Development	Incubator/ Entrepreneur	Instructional Support	Program Support	Sponsored Research	Workplace-based Learning

Notes:

Partnership Goal #2

Program faculty and administration will ensure lab facilities and teaching staff skills are sufficient to meet workforce expectations by FY 2024.

Models that support Goal #2							
Advisory Board	Curricular Development / Review	Faculty Professional Development	Incubator/ Entrepreneur	Instructional Support	Program Support	Sponsored Research	Workplace-based Learning

Notes:
